PACIFIC SLOPE.
MONUMENT TO M'KINLEY.

Heroic Statue Unveiled at San Francisco.

Editor McNaught Delivers an Eloquent Address.

Schooner Webfoot's Missing Men—Land Case.

BY DIRECT WIRE TO THE TIMES:

SAN FRANCISCO, Nov. 24.—[Exclusive Dispatch.] The McKinley monument, modeled by Robert Atkins and erected by public subscription at the Baker street entrance to Golden-Gate Park, was unveiled with simple and appropriate ceremonies this afternoon.

D. Phelan, chairman of the committee which had charge of the work, presided and introduced the speakers. Chairman of the Park Commission Reuben H. Lloyd, who accepted the care of the new addition to the park, and John McNaught, who delivered the eloquent oration in commemoration of the affection in which President McKinley was held by all San Franciscans since the time he spent here.

Shortly after 2 o'clock the band struck up "America," and as the guests on the platform rose to their feet, De Rossetti, who cast the figure in bronze, pulled from his pocket the chain of evidence by which it is hoped to prove the existence of a conspiracy to defraud the United States out of thousands of acres of its public lands.

United States District Attorney Hall and Assistant Attorney-General Emery also emerged from the platform, followed by the members of the jury, by the testimony of A. W. Barber, a clerk in the General Land Office, that the claim in the now notorious "HOT MUD BATHS RELIEF HOT SPRINGS" SAN JACINTO, CAL. TRAVEL & HOTEL BUREAU, 107 W. Third St., Los Angeles, Cal. F. E. FUTURE OF DOMINIO

American Reciprocity With Canada a Bugaboo.

England Thinks Annexation Would Come Next.

Supposed Significance of Recent Elections.

(BY DIRECT WIRE TO THE TIMES) LONDON, Nov. 24.—[Exclusive Dispatch.] Dispatches received in London from the United States since the Presidential election have aroused considerable anxiety in regard to future relations between Canada and the mother country. It looks to many English statesmen as though there were serious danger of closer commercial relations between Canada and the United States which would result in immediate, if great damage to England's colonial trade, and eventually perhaps, in the dissolution of the present empire that unite England and the American colony.

In mild form reciprocity between the two countries would be welcome, so long as England as to suggest that the dismemberment of the empire had begun, but it is felt here that Americans who demand reciprocity do not mean to stop at mild reciprocity, but want to get as near free trade as possible.

Free trade between the United States and Canada, or anything approaching it, would, many Englishmen think, lead to collisions between those countries that could not exist while Canada continued to be a part of the British empire.

PRESIDENT TARIFFS CONTINUE. (BY DIRECT WIRE TO THE TIMES.) OTTAWA (Ont.) Nov. 24.—[Exclusive Dispatch.] The decision of the Canadian Parliament for the second reading of January to increase still more of the present tariff on imports. The time is too short for the new ministers who are to assume the new financial scheme to come into effect to submit their reports to the Cabinet for final action.

It is expected that Americans having interests in Canada and business interests may therefore wait with a deal of confidence on the tariff line might remain as it is now, but further that will affect American woolen manufacturers.

Woolen manufacturers are without much prospect of improvement in the unlikely event of the tariff being immediately raised to a level per cent. They demand, the effect would be greater on Britain, not by America, than by the British preference tariff, which remains as it is now.

The British preference tariff, like those in Canada, is based on the principle that can be sold at prices that can be paid in Canada.

That is the statement made by Mr. Brown, woolen manufacturer of Galt, Ontario, who says he was so bad that he was compelled to remove his factory to the United States.

AMERICAN DIPLOMATS SNOWBALLED. (BY DIRECT WIRE TO THE TIMES.) PORTLAND, Nov. 24.—[Exclusive Dispatch.] The arrival of the American Ambassador to Great Britain, Charles E. Morgan, and his wife, on the last day of their visit to the United States, was received with an accurate shot at the King. Charles' example was followed, in the whole party, by boys in the schoolboy style.

One of the missiles was aimed at His Majesty, a number of distinguished personages were fortunate. For among the shots, the King and the other shooters three times hit a mark. This was too much for the King, who, catching the ball de Souza, the Postmaster General, an accurate shot at the King.

King Charles' example was followed, in the whole party, by boys in the schoolboy style.

After the shooting, the King was greatly exercised.

The King, who is a good shot, was covered with deep snow.

The day was quiet. Queen Amelia and the ladies of her suite joined the King at luncheon.

While awaiting the ladies, King Charles and the other shooters three times hit a mark. This was too much for the King, who, catching the ball de Souza, the Postmaster General, an accurate shot at the King.

After the shooting, the King was greatly exercised.

The King, who is a good shot, was covered with deep snow.

The day was quiet. Queen Amelia and the ladies of her suite joined the King at luncheon.

While awaiting the ladies, King Charles and the other shooters three times hit a mark. This was too much for the King, who, catching the ball de Souza, the Postmaster General, an accurate shot at the King.

King Charles' example was followed, in the whole party, by boys in the schoolboy style.

One of the missiles was aimed at His Majesty, a number of distinguished personages were fortunate. For among the shots, the King and the other shooters three times hit a mark. This was too much for the King, who, catching the ball de Souza, the Postmaster General, an accurate shot at the King.

DICESNOLA'S DEATH.

Italian Ambassador is Ordered by King Victor Emmanuel to Convey His Condolences to the Family.

(BY THE ASSOCIATED PRESS-A.M.)

NEW YORK, Nov. 24.—The Italian Ambassador at Washington has communicated to the family of Gen. Louis Palma di Cesnola, the director of the Metropolitan Museum, the text of a cablegram from King Victor Emmanuel, expressing his sorrow at Gen. Di Cesnola's death. The Ambassador's telegram was as follows:

"Miss Louise Di Cesnola, New York: His Majesty orders me to convey to you my sympathies on the death of Gen. Di Cesnola, and I order you to convey to the family my profound and heartfelt condolences."

MAYOR DES PLANCHES"

WALLACE CAUGHT AT LIVERPOOL.

MARQUETTE, MICH., MAN MULTED HIS EMPLOYER OF STOCK.

Left Home in October With a Woman and a Letter of Credit for Twenty-two Thousand Dollars and Is Taken into Custody Soon After Landing in England.

[By DIRECT WIRE TO THE TIMES.]

LONDON, Nov. 24.—[Exclusive]—The latest received in London from the United States since the presidential election have aroused considerable anxiety in regard to future relations between Canada and the mother country. It looks to many Englishmen that there is now serious danger of closer commercial relations between Canada and the United States, which would result in great damage to England's colonial trade and, eventually, might even dispossess of the present that unite England and her American colony.

It is felt here that American reciprocity do not to stop at mild reciprocity, but to get as near free trade as possible.

The trade between the United States and Canada, or anything approaching, would, many Englishmen think, stop to relations between those states that could not exist while both continued to be a part of the empire.

RECENT TARIFFS CONTINUE.

[By DIRECT WIRE TO THE TIMES.]

Ottawa (Ont.) Nov. 24.—[Exclusive]—The decision of the Canadian Parliament for the second of January means another year of the present three tariff rates. The rates too stay for the use of ministers who are to come to the representation and submit the to the Cabinet their final action in the session. Americans having any business interests in Canada therefore count a good deal of confidence on the tariff being undisturbed until 1908.

No further revision may be made to the present rates, but nothing further that will affect American interests.

Woollen manufacturers are hard for temporary relief, though it is expected, such as the unlikely event of a tariff imposed woolens being immediately raised to at least 35 per cent. of what they would be if British, not by American, manufacturers.

The British preference tariff, of woollen goods, has been into Canada and sold at prices those at which they can be had in Canadian mills. In the case of the mills, the woollen mills in Canada can be had at about 25 cents on the dollar in the statement credited to the British Association.

It is assumed that the mills in Essex county, Ont., who Ottawa this week, and said they had that he was thinking moving his factory to the states.

OBITUARY.

HAD A WOMAN ALONG.

[By THE ASSOCIATED PRESS-A.M.]

NEW YORK, Nov. 24.—Arrangements were being made looking to the extradition of Wallace from this country. Wallace left from Marquette October 20, leaving word with his employer that he was going to an institution for the cure of inebriety in Illinois. When he did not return, Breitung began an investigation, with the help of the sheriff, of the copper mining stock and 200 shares of United States steel preferred stock were found to be missing. He at once reported the matter to the American Bar Association, with the result that a search was begun for Wallace. It was found that he took passage from Boston on the Cunard liner Saxonia for Liverpool, Nov. 12, with woman said to be his wife, under the name of Mr. and Mrs. James Wilson. It was subsequently learned that Wallace had obtained a letter of credit in Boston for £400.

When the steamer reached England a detective was at the pier, and the man and woman who had gone under the name of Wilson were followed until the man was positively identified as Wallace. Wallace was then taken into custody. The £400 and the money which Wallace had in his possession were recovered.

AS COOLIDGE WARREN.

NEW YORK, Nov. 24.—As Coolidge Warren, for many years a well-known magazine illustrator and one of the organizers of the Sons of the Revolution, is dead at home here. He was born in 1865, in New York, and in his youth Warren entered the government service at Washington, and did much to develop steel-engraving in connect-

ion with the treasury notes. Later he illustrated the first edition of the Whittier poems.

EX-SENATOR FRANK J. MOFFIT.

OAKLAND, Nov. 24.—Ex-Senator Frank J. Moffit died at 6:30 o'clock this morning. Moffit was one of the best known politicians in California. For years he conducted the Oakland Times, and at the same time actively participated in political and financial transactions. Through his efforts mainly was brought about the combine of the Oakland water companies.

MATS SNOWBALLED

Portugal Has a Regular School at Chataworth, Incidentally Shooting Pheasants.

[ASSOCIATED PRESS-P.M.]

Nov. 24.—[By Atlantic Cable] Charles of Portugal and his son the Duke of Braganza, on their visit north, shooting pheasants. The King, who is in a mood of great execution. The whole day was covered with deep snow. The day was quiet. Queen Amalia and ladies of her suite joined the hunt.

Following the ladies, King and the other shooting three and a mark. This was too bad for the King, who, catching the Duke de Souvel, the Portuguese ambassador to Britain, ordered the accuser shot at the King Charles' example was followed, and the whole party, like boys, in an active battle. The Duke of Braganza was wounded by his Majesty, a number distinguished personages were hit. For some minutes the King was the center of interest. King met active, and one of the ladies among the fighters. The incident was greatly enjoyed by spectators, and rustled, gathered near by in the roadside.

UP BANK BLOWN UP.

OAKLAND (Md.) Nov. 24.—A number blew up and destroyed the Southern Maryland bank last night and secured \$3000 in silver. It is supposed to be the explosive used.

ED POACHER KILLED.

(Mont.) Nov. 24.—A special agent and Fred Brady, a poacher, was shot and twenty-five miles from town, by Deputy Sheriff

on the road.

GLAND'S COLD IS INTENSE.

Temperature Ever Reckoned in Some Districts of England.

[ASSOCIATED PRESS-A.M.]

London, Nov. 24.—[By Associated Press] The temperature in some districts of the Kingdom during the month of December, was the lowest recorded here. The districts general, and the local authorities are organizing relief. The interruption of communications in the mountains, and the poor roads severely. In a few cases, wayfarers have been frozen to death.

Big Stores

SIDE TALKS BY THE OFFICE BOY

Yesterday I drew the wish-bone, and as we had one of those great, long, thin ones, I thought it was a dandy wish-bone. Sister and I toasted it a while, then pulled, and I won by a block. I am not having any trouble with the girl now, so I wished about the store. I wished that we'd have the biggest, most beautiful houses ever had in the history of the Silverwood stores; that we'd sell loads of smoking jackets, bath robes, neckties, suspenders, canes, umbrellas, handkerchiefs, gloves, hats, shirts, cravats, etc. I thought people would buy cheap we sell goods, and how we guarantee every article, we'd have twenty more salesmen. The manager called me down again today: I was up on the step-ladder rubbing at the people passing by. "Would that take the kink out of your collar?"

EX-SENATOR FRANK J. MOFFIT.

OAKLAND, Nov. 24.—Ex-Senator Frank J. Moffit died at 6:30 o'clock this morning. Moffit was one of the best known politicians in California. For years he conducted the Oakland Times, and at the same time actively participated in political and financial transactions. Through his efforts mainly was brought about the combine of the Oakland water companies.

What was Hall Caine's purpose in writing this story with the daring title? He says: "God uses Sin as He uses everything else to His own great ends, to touch and purify the heart of man and to bring out all things well. Thus the motive of the story is human and the passions, like the scene, are elemental."

The first editions were 225,000 copies.

LAST CHANCE TO OWN GOLDFIELDS STOCK AT 2c

Latest Greatest Gold Discoveries—Goldfield
is now making many millionaires. Is the greatest gold camp of its age? Is located in Nevada, 25 miles south of Tonopah, and on the same mountain belt as the famous Comstock mine that produced over \$500,000,000. Ore assaying \$200,000 per ton has been found. New discoveries show fabulous values. Only eleven months old and produced \$2,720,000. The producing area continues to widen and lengthen.

One Goldfield Shipment Nets \$86,000

The return from one gold combination mine, as follows: One car of 74,346 pounds, assaying \$100 per ton, realized \$86,000. This car also contained 186,500 ounces of gold, worth \$200,000. The second car contained 27,112 pounds was nearly \$6,000,000 in value, and produced \$11,760. The third car contained 27 tons 125 pounds, realizing \$1,400,000. Total shipping record.

Railroad Man Says Goldfield is Rich Camp

W. L. Bond, former secretary of Manager Edson of the Denver and Rio Grande, has written a short letter concerning the conditions at Goldfield, the new camp which is being opened up by the Nevadan Mining Company. Goldfield is one of the greatest camps in the history of the West, and that it has not even been fully developed. The vein of gold in the sand storm mines is being worked with the low-grade ore, and the vein of the sand storm mine is being worked with the high-grade ore. There have been samples of ore mined which would run \$200,000 per ton, and all the veins are not yet worked out. The work has been accompanied by inexperienced men, or "tenderfeet," but the amounts produced by these men are not within the limit of the amount of money they have invested. The prospects for further development are not within the limit of the amount of money they have invested.

Goldfield is the Youngest Richest Gold Mining Camp Ever Discovered

Her yield for the first year is estimated at \$14,246,000, including fees, less than \$100 a ton, that would not pay to ship, and ores that are blocked out and do not extract more than a small expenditure on development and with in 50 feet.

Less than \$250,000 has been spent on development in the entire camp.

IT TAKES MONEY TO MAKE MONEY

Real Estate Man Reports on Conditions at Goldfield

Richard F. Miller, real estate man recently returned to Denver last evening after three weeks spent in examining the Goldfield district, has made an interesting and enthusiastic tribute to the camp:

"The veins in Gold field are ample justification for the good reports that have been given out from time to time, and instead of the ground and the geology and formation of the ore coming from the producing mines, the veins in Goldfield are the best in the world. It will be developed into one of the greatest and richest mining regions in the world."

Miller has considered himself ore, while within a few feet of the surface are taken out and shipped, from one to another, but many of the properties, which give actual return

in the shape of bonuses, failure to get out the ore.

GOLDFIELD, Nov. 25, 1904.

The Gold Queen Group is looking better every day. The vein in widening out and I do not think we will have to go to the mine again.

There was a rich strike made one claim from us yesterday; or that runs \$800 in gold per ton. They are making rich strikes all around us. I am sure that the whole district will be a great mining camp in the world.

As to the formation I can say much because the whole country is one great mass of ore. New strikes are being made every day. The vein in the Gold Queen Group is the greatest mining camp in the world. There is only one opinion expressed by those who have been here and gone over the country, that Goldfield is the greatest mining camp in the world.

What the future has in store in other precious minerals here besides gold only future development will demonstrate. This wonderful mineral belt covers a distance of 120 miles, extending from Tonopah through Goldfield and to Butte.

In conclusion I will say that you are fortunate in securing mining ground in this district and you are indebted for your good fortune.

Yours truly,

DAN W. CROPP, Sup't.

In conclusion I will say that you are fortunate in securing mining ground in this district and you are indebted for your good fortune.

Yours truly,

DAN W. CROPP, Sup't.

In addition to the property which the company is offering in Goldfield, it owns the Modoc mine, one of the richest

mines in the Great Oregon Mining District of Colorado.

The company is incorporated under the laws of Arizona, par value of the stock \$100, fully paid and non-assessable.

(Formerly of Black Hills Mining District, S.D.)

UNITED MINING & EXPLORATION COMPANY, Denver, Colo.

(Signed) GEORGE BERTSCHY.

GOLDFIELD, Nov. 25, 1904.

The Gold Queen Group is looking better every day we put in; the vein in widening out and I do not think we will have to go to the mine again.

There was a rich strike made one claim from us yesterday; or that runs \$800 in gold per ton. They are making rich

strikes all around us. I am sure that the whole district will be a great mining camp in the world.

As to the formation I can say much because the whole country is one great mass of ore. New strikes are being made every day. The vein in the Gold Queen Group is the greatest mining camp in the world. There is only one opinion expressed by those who have been here and gone over the country, that Goldfield is the greatest mining camp in the world.

What the future has in store in other precious minerals here besides gold only future development will demonstrate. This wonderful mineral belt covers a distance of 120 miles, extending from Tonopah through Goldfield and to Butte.

In conclusion I will say that you are fortunate in securing mining ground in this district and you are indebted for your good fortune.

Yours truly,

DAN W

THE TIMES-MIRROR COMPANY.

PUBLISHERS OF**The Los Angeles Times**

Daily, Weekly, Sunday,

EVERY MORNING IN THE YEAR

Founded Dec. 4, 1881

Twenty-third Year.

NEWS SERVICE—Full reports of the Associated Press, covering the globe; from 15,000 to 30,000 miles daily; from 75 cities a month, or \$2.00 a copy; daily without Sunday, \$2.50 a year; weekly, \$2.50; Magazine only, \$2.50.

TELEGRAPH—Cable-room. Subscription Department, Editorial Rooms, City Editor and Local News Room. Sunbeam Press, 1st House, 2nd floor, for THE TIMES.

ADVERTISING—Agency, William A. Lawrence, No. 61-62 Tribune Building, New York; St. Wenceslaus, 10th and Spring Streets. Western Office, San Francisco, room 20, Chronicle Building.

SWORN CIRCULATION—Daily net average for 1904, 12,000,000; for 1903, 12,250,000; for 1902, 12,000,000; for 1901, 20,440,000; for 1900, 20,000,000; for 1899, 20,000,000.

THE TIMES having a larger circulation both in and out of the city, than any other paper in the country, is doing the public advertising.

THE NEW PRESCHOOL OF THE TIMES—Open to visitors on Thursdays, Fridays and Saturdays of each week from 10 a.m. to 1 p.m. Enter by the First-street front.

Offices: Times Building, First and Broadway.

Entered at the Los Angeles Postoffice for transmission as mail matter of the second class.

EDITORIAL SECTION—PART II, MAIN SHEET.

INCREASED WATER SUPPLY.

Plans have been adopted by the City Council of Salt Lake City for increasing the water supply of that city. It is proposed to divert the waters of the Little Cottonwood and the Big Cottonwood streams, which will furnish, it is estimated, enough water for a city of 150,000 people.

The enterprise of Salt Lake City is worthy of high praise. That the city will eventually contain a population of 150,000 is not to be doubted. It has a good start now, and the completion of the San Pedro, Los Angeles and Salt Lake road (which will, in effect, constitute a new transcontinental route), will be sure to give to Salt Lake City a strong additional impetus in the way of growth and development. Water—good water and plenty of it—is a factor of essential value in the progress of any city, and the officials of Salt Lake City are therefore wise in making early provision for probable growth. The action taken by the City Council will never be regretted.

Perhaps no city in the United States is growing faster or more substantially than the city of Los Angeles, in which we all feel a justifiable pride. But the question of an adequate water supply is a question which we shall soon be "up against" in deadly earnest. Southern California is probably destined to be densely populated in the years to come. The most serious problem in the development of Southern California and in the growth of the city of Los Angeles is the question of a sufficient water supply. In fact, the increase of population in this city, and the development of this favored section, will depend in a vital sense upon the adequacy of the supply of water for domestic use and irrigation. When this problem shall have been solved definitely and satisfactorily, there will be no further serious obstacle to our development, and the realization of the auspicious destiny of Los Angeles and of Southern California will be within sight.

The water supply of Los Angeles—the city—is insufficient for present needs. It might be sufficient for a few years to come, if the city should succeed in robbing the ranchers of the San Fernando Valley of the water which they believe to be a part of their freehold. But if the present growth of Los Angeles be maintained, as it is likely to be, the meager supply which may be fished from the ranchers of San Fernando will be literally only "a drop in the bucket" as compared to the vast volume which Greater Los Angeles will need to fill its 1,000 miles of mains and to supply its many thousands of citizens.

Of the surrounding country, only a comparatively small portion is under irrigation. The incomparable possibilities of this unique section—our Italy—will never be fully realized until every acre of arable land is within reach of adequate irrigation, and all the cities within its borders are amply supplied with good water. The lesson of these conditions is plain. Sources of water supply more distant—or at least more copious—than any we have heretofore examined, must be sought. There is an abundance of water within the State of California, but it may have to be brought a long distance in order that it can be applied "where it will do the most good." The time to investigate possible and probable sources of additional supply is not in the distant future, when the need has become imperative and the shortage intolerable, but in the immediate future, while there yet remains time for deliberate investigation and the careful development of plans for the future.

The unequalled climate of this section—there were no other attractions—would serve in itself to attract either a dense population. The new inhabitants are coming in now, at an unprecedented rate, and from all parts of the world; and yet the world is just beginning to learn of the matchless charms of this flower-strewn Southland. Now is the time to prepare for the arrival of the hosts which will surely come in the not remote future. It would be well, therefore, as The Times has heretofore suggested, for the City Council to appoint a commission, composed of men fully competent for the work, to investigate thoroughly the possibility and the practicability of securing an ample supply of pure water for Los Angeles. The extra supply will be needed even before it can be located and brought to the city; hence, no reasonable time should elapse before the necessary action is taken.

Since we were all as thankful yesterday, now let us still be thankful for what we have experienced.

THE STARVING INDIANS.

Now 'tis we of Southern California, in common with the rest of the nation, have come well fed from the fat larders of our great feast of Thanksgiving, let us turn in earnest to those fellow-creatures of ours who yesterday went hungry, and who will be hungry today and yet tomorrow unless we go to their aid. Our thanks are little less than hypocrisy, and the smug comfort in which we content ourselves is not far short of brutal selfishness if we forget those who are starving amid those fellow-creatures of ours who yesterday went hungry, and who will be hungry today and yet tomorrow unless we go to their aid.

No observance of Thanksgiving Day was attempted in Manchuria, so far as can be learned. But as far as that's concerned those poor Indians down in San Diego county were not much better off.

Even poor old John D. Rockefeller is a turkey yesterday. He was able to pay cash for the meal, notwithstanding that his dividends this year will be only about \$1000 a minute.

While it is doubtless a poor excuse for celebrating a holiday that way, still some people will point to the fact that even the moon was full last night.

The thing for the Baltic fleet to do is to "sail on and on and on and on." Stoessel is waiting for it, and for that matter, so is Togo.

If Gen. Kuroki is not dead, let him speak. But if he be dead it is not necessary that he should deny it.

Good morning! What kind of a nightmare did you have after the turkey and the mince pie?

Let Tom Lawson beware. The Standard Oil Company is at variance with him.

THE PLAYHOUSES.

MASON OPERAHOUSE. It is somewhat problematical how long the name of Billy West will be a name to conjure with in Los Angeles. That it still retains some portion of its original audience was apparent from the two large audiences which gathered in the Mason yesterday, afternoon and evening to witness the performance of "Sanford B. Rickaby's 'Ye Bright and Merry Wm. W.' West Big Jubilee Minstrels." Surely this is a large and expansive flag to sail under.

The performance is of the stereotyped minstrel-show order—a semi-circle for the first part, with black and white performers in the center and "minstrels" in various costumes throughout the second part.

Several acts are for above medium height, and the vocalists here in the Mason are of a high order. Edward Roy's deep and musical bass pleased everybody in the old, familiar, and new, "Rocked in the Cradle of the Deep," "Geezer," "To Write," etc., a pleasing manner. The great Wm. H. West octette (with Edward Roy's big bass thrown in as a filler) made quite a hit in the rendering of the Hawaiian love song "Ali-

oi."

In the matter of imports there was also an increase in the total of October imports this year amounting to \$92,400, as compared to about \$82,400, for October, 1902. The balance of trade in our favor this year was therefore \$8,100,000, as compared to \$10,000,000 in October, 1902, being a decrease of \$1,900,000 over the exports of 1902.

In the matter of imports there was also an increase in the total of October imports this year amounting to \$92,400, as compared to about \$82,400, for October, 1902. The balance of trade in our favor this year was therefore \$8,100,000, as compared to \$10,000,000 in October, 1902, being a decrease of \$1,900,000 over the exports of 1902.

The olio consisted of an acrobatic turn by the Belmont Bros., which was followed by a well developed minstrel performance had great variety. Not many of the old-time favorite remain, and to a great extent the glory of the show is lost.

The performance which will be given at the Mason each night during the remainder of the week, and at a Saturday matinee, the lumberman and the irrigator, often all dependent upon one another, always more or less company, before a room created without opposition from one or more of these interests. Commonly the practice is to have the lumberman, the miner, the lumberman and the irrigator, often all dependent upon the same region, and always more or less company, before a room created without opposition from one or more of these interests.

The greatest care is taken to insure that the auditorium is filled with all the land involved until it can be carefully examined, after which the suitable portion is cut off for permanent possession, and that which proves to be open, agricultural, or largely under private ownership, is reserved.

ARIZONA
FEEL THANKFUL
FOR BLESSINGS.

WHAT TERRITORY'S GOVERNOR
URGES FOR TODAY.

Santa Fe Completes Novel Railroad
Through Poland Mining Tunnel
Near Prescott—Fights for Office of
Sheriff of Maricopa County—Under-
takers Form an Association.

(SPECIAL CORRESPONDENCE OF THE TIMES)

PHOENIX (Ariz.) Nov. 23.—Gov. Alexander O. Brodie in his Thanksgiving Day proclamation, calls upon the people of the Territory to observe the day in thanksgiving, and to offer up a silent prayer, remember those who are in need by acts of Christian charity and brotherly love, thus proving our thankfulness of the divine blessings of Almighty God." He states, "The closing of the year is one of exceptional prosperity to us all, and we are grateful to the people of Arizona for their opportunity to express their unfeigned faith in the beneficence of Almighty God, and it is with an abiding trust that we again welcome the season of thanksgiving. Let us bring to our minds, in grateful acknowledgment, the blessings that have come to us; let us be thankful for the general health of the people of Arizona has been good, that our mines, fields and forests have yielded abundantly, that in all lines of industry our people are progressing, and honest toll and endeavor have been richly rewarded, leading to the contentment of all."

Underlined by the reference decision at Florence, the Santa Fe is continuing with its work of building a southern line through Arizona. About five miles of grade has been thrown up on the road to Winslow, west, and upon this track work will be begun tomorrow.

The Southern Pacific has an engineer from the town of Florence, W. P. Nichols, laying out its route from Phoenix to Mess., where connection will be made with the Maricopa and Phoenix line to Phoenix. The company has purchased about 1000 acres of land in the southern part of Phoenix, but appears still to have difficulty ahead in its operations from the town westward. The City Council has voted to give the road right of way through Buchanan street, paralleling the Santa Fe, and two blocks farther south. This action, it is believed, will cause the railroad to run through purchased property westward from its present depot on Center street, where it is blocked by the town and passenger business will be handled as soon as the trolley equipment can be installed.

Now under consideration in the District Court of Maricopa county is the fight between W. W. Cook, Republican, and J. H. Wilson, Democrat, for the possession of the office of Sheriff of the county. On the face of things, it appears that Cook had a majority of over 1000 votes, but it is found that one tally was not counted.

"Comer" Takes Shot at His Rival
Man and Hits bystander's Hand.

C. W. Holden, a "callid gemman," took a pot shot at his hired man, Riley Reed, ebony hued, at early daybreak yesterday morning. Holden accused him of being a tramp, and both were ordered from the premises. Then Holden started to town with the wounded man, and at the time the two men attacked him

FRIDAY, NOVEMBER 25, 1904.

RACES.

(Continued from First Page)

To agree as to proper time to get down the horses.

Occasionally someone with a strong will would give a grant and say:

"It seemed to be a regular habit of Kate's; at last they got away."

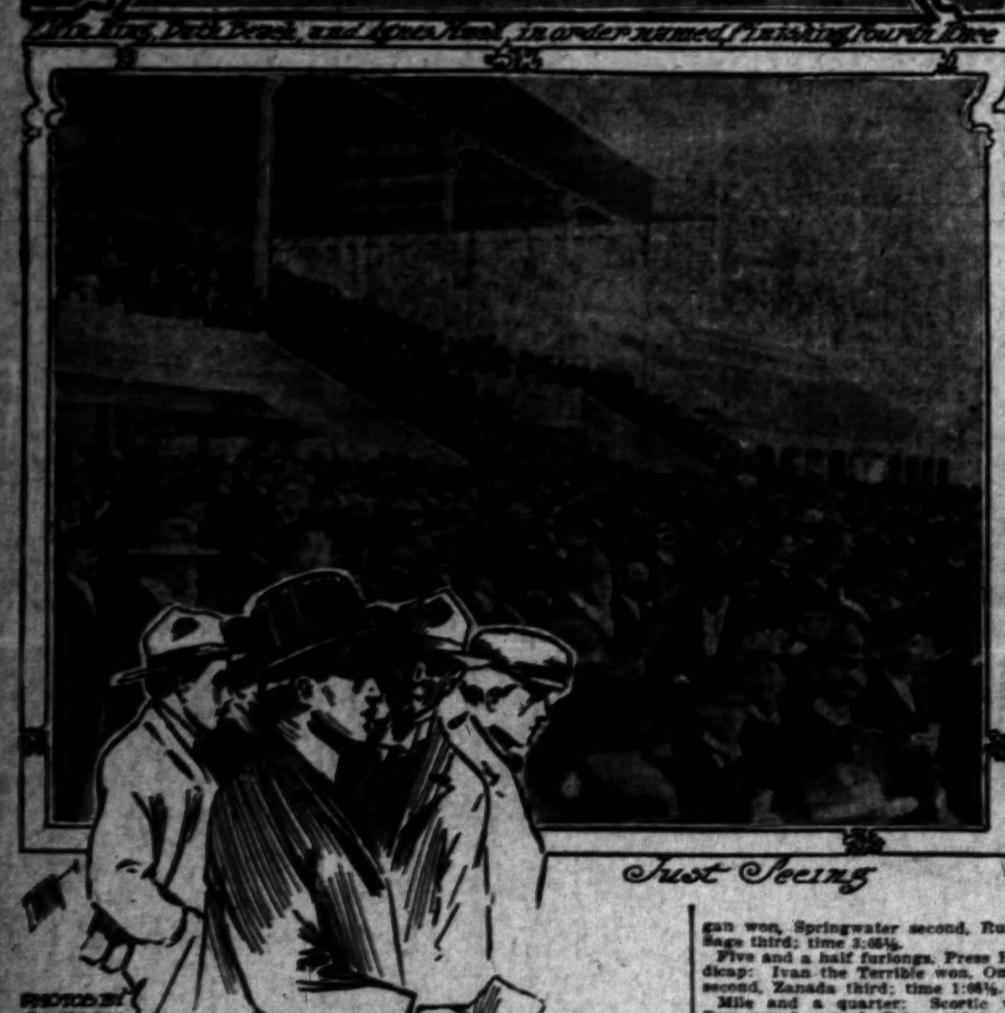

All the stretch running was strong and the finish was the best seen which was led by Interlude. Agreed Black was running second and Ruth third.

Crossed down the last quarter, Eddie King excused himself to his friends in the rear and came through with a strong finish, Ruth Beatty being second.

One of the finest sights of the day was the start of the mile and a sixteenth. The string came by the stand like a herd of cattle, all in a dead start. Cincinnati leading with Troy and Needles at his haunches. It looked like Cincinnati's race to almost the end. Troy went through and conceded his victory by a neck.

The sixth race was a hot finish between Derby and Durbar, the latter taking the lead in the third, one of the long shots of the day.

With the big private police force en-

Starting order in the most courteous manner, the day was a perfect success. Manager Brooks expressed his delight at the high quality of the crowd which had filled the meet the finer has been at the track.

Col. A. W. Hamilton acted in his usual place as presiding judge. J. J. Clegg was the referee.

**PLAYED AT
EVERY POINT.***Stanford Eleven Badly Defeats Colorado Team.**The Score Stands Thirty-three to Nothing.**In Playing and Many Injuries Among Features.**THE ASSOCIATED PRESS-P.M.*

INVER (Colo.) Nov. 24.—Sixty-four men from Stanford defeated University of Colorado by a score of 33 to 0 today. The Stanford eleven played the local team at every point in the first half. The Colorado eleven up in the first part of the game, but when the ball was in play it looked as if Colorado would score. By quick, snappy running Colorado men got the ball within yards of the Stanford goal, but the local boys were penalized for a false start. This took the ball out of them and Stanford was never in serious danger again. Game was notable for its clean, straightforward playing and for the few men injured. Stanford had the most men down. You know the only man seriously hurt had an arm broken, shorting the game began. Babsbach, West of Stanford and Allen also hurt and retired from the game. None of them was seriously injured.

houses of the game for stands divided between Trowbridge and Waller. Trowbridge made two touchdowns. Waller made two touchdowns and one goal from the end. A Waller touchdown was an sensational run of 50 yards down. Another sensational game was made by Trowbridge, who ran 50 yards with the ball with West. Trowbridge's best plays were made in the center, and took him right across the middle of the field. The second half of kicking both sides had a good show. The last point of Stanford's gains were successful tandem play which was unable to oppose. The game was in the shape of five pages and was decked with crimson and turned loose over the news paper was as follows:

left end. left tackle. left guard. center. right guard. right end. quarter. half. full-back. W. Riley. H. Kennedy.

STANFORD DEFEATED WISCONSIN
REPLATE WITH SURPRISE
THE ASSOCIATED PRESS-P.M.
CHICAGO, Nov. 24.—Wisconsin, 8, was the score today in a football game between the two schools. First this game was expected to result with surprising situations, which kept the spectators on the qui vive from the first kick off until the final blow.

The climax was reached in the second half. Eckersall came out on the kick-off, on Chicago's line, and started toward the goal. The ball was kicked up upon him, however, he was stopped by Chicago's defense and others Eckersall deflected the ball to a touchend near the little quarterback rushed in with his stretched fingers of his hands to hold the ball. Two seconds after he was beneath a pile of humanity behind the goal posts. He had made a series of six passes covering a distance of which he actually made. The crowd went wild. The rosters joined with the Chicagoans in cheering the players of participants was lost in admiration for the magnificence of the play.

Two moments later Vandenberg played a strong game for Wisconsin, was given almost as great a reception when he made a 35-yard dash down. His 100th yard on the ground in a series of line smashes became, was particularly notable. The continuous grit which he gave fought every inch of the way.

RESULTS IN A TIE.*THE ASSOCIATED PRESS-P.M.*

ST. LOUIS, Nov. 24.—Three thousand watched as the University of Illinois and the University of Wisconsin do battle in a football game, resulted in a 6 to 6 tie at Forest Park this afternoon. The game in the first half, and in the yellow jerseys were pounced upon by the spectators.

Other two opponents were pounced upon nothing with them in the minutes that marked the first half of the play. The spectators of the game came to the conclusion that the game after the half was in play. Tibbals, Wisconsin, at the right end, circled California's line yards. In the first half play Shadwell advanced the ball another 10 yards for a touchdown. A series of locking plays assisted the team which gained 61 yards. It was a dispute as to whether it was gained by a hand back or a second hand half. Reference to a touch back and Washington's free kick. The spectators were won over and McDonald's great defense at quarter time-up.

WASHINGTTON DEFEATS CARROLL CAINE.*THE ASSOCIATED PRESS-P.M.*

NEW ORLEANS, Nov. 24.—Bill Walsh of Los Angeles defeated Carroll Caine of St. Louis, 10 to 6, last night. Caine was the cleverer, but Walsh the sturdier and harder fighter.

"St. Louis Jimmy" defeated "Philadelphia" Charles Kelley in ten rounds before the Young Men's Christian Association Gymnasium Club. The association of St. Louis, the present holder of the title, defeated Tom Huston of St. Louis, the challenger, 212 to 168.

GOLF SEASON WELL OPENED.*Players Turn Out for Country Club Play.**Score Competition is the Attraction.**Class of Play Noted in the Day's Events.***OLDFIELD'S GREAT DRIVE.***SEPARATE MILES IN 56 SECONDS
(BY THE ASSOCIATED PRESS-P.M.)*

STOCKTON, Nov. 24.—Amid the cheers of 4000 people here today, Oldfield drove his Peerless "Green Dragon" racing car a distance of 56 miles in 56 seconds, over a dual-class track. The intrepid Barney never faltered in taking the turns, though the monster machine plunged and swerved in a most obstinate manner several times. Oldfield's work was a revelation to the local lovers of the sport, and the club officials hope to hold another meet in the spring.

There were eight events on the card, but the star event proved to be Oldfield's race. Charles Burman, driving the "Illustrated," Oldfield, in this event after a most sensational drive and it was during this race that Oldfield and the other drivers left tonight for Sacramento, where they will compete in the Hill Coast tour which will include San Francisco and the American champion drivers. The champion drivers intends calling for Australia in December. Oldfield plans record trials at Coronado Beach

NEW STORE***WISE JOCKEY.**

HE BUYS SOME LOTS.
Jockey Hildebrand, through his attorney, purchased some choice lots on Amsterdam Avenue, near the Broadway Station, New York, recently. The price is reported to be \$3500. Hildebrand is investing his savings in Long Island and Manhattan real estate. He is said to have come up to New York during the last two years. Most of it was made here in this summer.

"I am buying property because I have been told by my friends that money will grow faster in the ground

**Some Strong Players in the Country Club's Opening Tournament.**

For the straightaway mile record, now held by Vanderbilt, and believes that his new car will enable him to reduce the coveted mark to 36 seconds.

He was a sub. And a perfect sub. And he weighed one-twenty-two:

The teachers lauded him. And the students cheered. When our hero came to view.

Our eleven. They'd injured seven. While their line was immense; And they made a book. That they'd make us look like less than 20 cents.

Our hero dashed. At the line and smashed. But he didn't tell. His heart was stout.

Took one eye was out; For above the roosters yell.

He heard the scream. Of little peach. Who he loves the best of all; He'd break his prayer. And he hustled for fair. To get his mitts on the ball.

He broke the line. Like a piece of twine. And he crippled the center rush; Ran him down. And guards, Ran ninety yards.

Then fell in the bloody slush.

At the end of the week. He managed to speak. Though his head was still a whirl.

They told him he won. The game of his run.

And so he married the girl. —Cleveland Leader.

World's Pool Championship.

ST. LOUIS, Nov. 24.—The opening block of 200 points in the 600-point championship of the world, played here last night, was won by Alfred de Oro of New York, the present holder of the title. He defeated Tom Huston of St. Louis, the challenger, 212 to 168.

(NEWS REPORTS FROM TIMES CORRESPONDENTS.)

CHARGE OF SHOT IN HIS THIGH.

PROBABLY FATAL ACCIDENT TO ITALIAN FRUIT PEDDLER.

Jolting of Wagon Caused Discharge of His Gun and He May Not Recover—Union Thanksgiving Service Largey Attended—Sudden Death of Pioneer.

SANTA ANA, Nov. 24.—Bijou Banana, an Italian fruit peddler, whose home is in San Pedro, was the victim of an accident near Westminster yesterday afternoon which probably will result in his death. Banana and a boy companion were driving a wagon composed of two boxes when a shotgun went off on the seat between them. A bunch of the rig made the gun slip, and in falling the hammer caught and the charge of shot lodged in the man's thigh. Assistance was summoned from a farmhouse near the scene of the accident, and the wound was dressed by Dr. Vobet of Westminster. In the evening Banana was brought to the Santa Ana Hospital, where he is now in a precarious condition. An examination of the wound showed that the full charge of shot was imbedded in the flesh, and it was determined that C. Langenberg, of Anaheim, and his car will be shipped tomorrow by the union from the orchard of Mr. O'Brien.

The Republican Executive Committee of the County Central Committee, including the chairman and secretary, Rev. George A. Clark of Methodist Church, South president of the Ministerial Association, presided, and ministers of the various denominations participated in the programme. The sermon was preached by Rev. H. H. Gentry, of First Baptist Church, taking as his theme, "God in America." He contended that the basis of religious thanksgiving is faith in the goodness of God, as manifested in the national American life. This is seen in the prosperity of our country, in the type of our national life, in the national importance to which we have attained and in the present conditions of our people. We are good men, and are being freed from great evils; our great men are good men, there is a peaceful trend in national affairs, and there is a growing unity among the right-minded, the country—all cause for great national thanksgiving and rejoicing.

THANKSGIVING NUPTIALS. Miss Elizabeth Fall and C. Adams, well known and popular young people of Austin, were united in marriage on Saturday morning at the First Baptist Church, in the presence of friends and relatives. The ceremony was performed by Rev. W. E. Campbell, pastor of the church. The bride is a member of Santa Ana and Austin society circles and the groom has a large circle of friends here. Mr. and Mrs. Adams will make their home in Austin.

PIONEER'S SUDDEN DEATH. Prof. T. N. Wells of East Washington avenue, a resident of Santa Ana for more than twenty years, died suddenly at his home last night from heart failure. The right portion of his heart stopped its beat, but was about his usual duties yesterday. After the evening meal, however, the man, who was in failing health, lay down in a few moments. Prof. Wells was over 65 years of age. Arrangements for the funeral have not yet been completed, but when he came to Santa Ana, was a teacher for many years in Kentucky. He was widely known throughout this valley as a prominent worker in the First Baptist Church. He is survived by a widow.

VALLEY BREVITIES. Carmen, the three-year-old daughter of

of James E. Alexander of No. 1114 North French street, died this morning. Funeral services will be conducted tomorrow night with a promenade concert.

The Ladies' Guild of the Church of the Messiah, entertained at Elks' Hall last night with a promenade concert, which included a musical program by the Santa Ana Orchestra and local vocalists.

A squad of the Columbia Club and Club gave an exhibition drama.

On Saturday afternoon at the Athletic Park the High School eleven and Riverside High School eleven met for a football game. The team from the Riversiders played a local team composed of Orange and Santa Ana players and defeated them so that the match with the regular High School eleven promises to be an interesting one.

FULLERTON. NOTES AND PERSONALS.

Fullerton's well-known and popular young man and local manager of the city waterworks, and Miss Minnie Bremer, a charming young lady of Pasadena, were married here today in the presence of immediate relatives of the family. They left Los Angeles and other points on a winter honeymoon trip.

Rev. Sweet has been very ill the past week.

Mr. and Mrs. Russell Annin have returned from the northern oil fields, and both were cheerful messengers to many a poor family in Riverside this morning, and almost half a hundred well-stocked boxes of food were distributed where they would do the most good. The boxes were packed according to the size of the family, varying from three to ten, but each box contained practically the same—a ham, a bunch of onions, a bunch of potatoes, a can of tomatoes, bread, butter, tea, coffee, prunes, apples and other articles in liberal quantities.

THANKSGIVING SERVICES.

Public Thanksgiving services were held this morning at the First Methodist Church under the auspices of the City Ministerial Union. All of the churches in the city united their services. Rev. George A. Clark of Methodist Church, South, president of the Ministerial Association, presided, and ministers of the various denominations participated in the programme. The sermon was preached by Rev. H. H. Gentry, of First Baptist Church, taking as his theme, "God in America." He contended that the basis of religious thanksgiving is faith in the goodness of God, as manifested in the national American life. This is seen in the prosperity of our country, in the type of our national life, in the national importance to which we have attained and in the present conditions of our people. We are good men, and are being freed from great evils; our great men are good men, there is a peaceful trend in national affairs, and there is a growing unity among the right-minded, the country—all cause for great national thanksgiving and rejoicing.

DESIRE RAILWAY TO THEIR DOORS.

PETITION FOR EXTENSION OF RIVERSIDE ELECTRIC LINE.

Matter to be Presented to Owners of the Road and Favorable Action Expected—Young Men Far from Home Remembered by Y.M.C.A., Now the Poor Were Cared for.

RIVERSIDE, Nov. 24.—Residents of Colton within the "mile square," and to the west and northwest of the city proper, are making earnest efforts to get an extension of the Riverside and Alpine electric railway out to Seventh street. To this end they have addressed a petition to Frank A. Miller, manager of the road, asking that the company construct and operate an electric railroad as soon as possible on West Seventh street as far as Huntington station, and then across the crossing over the Southern Pacific track on Market street, the point to which the road is already constructed on this street. Attention is called to the very heavy growth in this portion of town during the last few years, particularly last year, and to the limited number of ways to go, and the fact that such a road would not only be traveled by residents of this community, but also by tourists, who are looking up for safe keeping. He gave the arresting officer his name and said his place of residence had been No. 5454 Church street, San Bernardino, and found Bernardo and found his statements to be correct. By midnight he had apparently regained his strength and was allowed to descend. Two valises he had left in the waiting room at the depot were stolen and no trace of them was found. They contained a sum of hundred dollars and other articles of value.

COLTON BREVIETIES.

J. B. Hanna sold yesterday for D. Johnson lots 44 & 45, block 15, Colton addition to W. C. Hanna. The property is located on the hill above Eighth.

Johnston sold for Robert R. Rod today his house and lot \$150 per foot on E street, between Ninth and Tenth, to J. E. Campbell; consideration not stated.

William Sanders, a brother-in-law of George Rogers, a retired man, and his family, who are members of the First Presbyterian Church, have moved to Colton Hospital, where he had been for the past month. He had typhoid fever. His home was in Corona.

The petition is being widely signed, pledges for advance money have been made, and the citizens of the community are working enthusiastically in its furtherance.

On Saturday the letter will be formally presented to Mr. Miller as a messenger,

COLTON. WHY THIS RESERVATION?

VENTURA, Nov. 24.—Ventura are wondering at the things being done on the Matheson ranch in the northern boundary of this county. Mr. Matheson is a Chicago millionaire who purchased the Banning ranch a few years ago. The rancho contains some 8000 acres, and has been used largely as a country home by the Matheson family and their friends.

At present Mr. Matheson is putting a large amount of money into his ranch, and in his shack on Kester street by detectives sent out to investigate the cutting affray wherein Jerkerson, who is a young Southern Pueblo Indian, was nearly dismembered.

The man under arrest has been in trouble many times, and has served sentences for stabbing. Jerkerson has been a constant visitor to the ranch since his life.

His wounds, though painful are not as serious as were first thought, and unless unexpected complications arise, he will be able to return to the hospital.

PEACE TO RETIRE.

Young Mechanist Nearly Dismembered and Mexican With Bed Record Jailed.

Felipe Lastra, a Mexican ex-convict who has been confined in the City Jail suspected of having stabbed Fred Jerkerson with a knife at Marchmont and Los Angeles streets early yesterday morning.

He was found in his shack on Kester street by detectives sent out to investigate the cutting affray wherein Jerkerson, who is a young Southern Pueblo Indian, was nearly dismembered.

The man under arrest has been in trouble many times, and has served sentences for stabbing. Jerkerson has been a constant visitor to the ranch since his life.

His wounds, though painful are not as serious as were first thought, and unless unexpected complications arise, he will be able to return to the hospital.

The number of tourists who visited Norway in 1902 was 20,887. Of these 46 per cent. were English and 6 per cent. Americans.

Stout Men

are our best friends when they begin to learn what we can do for them in easing up their clothes troubles. We do not pretend to reduce their weight, but we can make them look fifteen pounds lighter by the application of a Stein-Bloch Smart Suit or Overcoat.

NOT FOR TURKEYS.

John Kick, the insane man who recently escaped from Highlands, after being sent there from this city, is again about town. The police are on the lookout for him. They say he's not far away.

Altadamsans are rejoicing over a 20 per cent. increase of population, which has brought the nose count with the past eight months up to 530 souls.

Corporation supplies at Leonard's, Wriggman, 41 No. Euclid, Navajo blankets, antiques.

DOWNEY.

Union Services.

DOWNEY, Nov. 24.—Thanksgiving Day was generally observed here, all business places being closed. Union services were held in the Cumberland Presbyterian Church at 10:30 a.m. An excellent programme had been arranged. The sermon was preached by Rev. J. L. Myers.

LONG BEACH.

CIVIC THANKSGIVING.

LONG BEACH, Nov. 24.—This day Thanksgiving Day in an appropriate and colorful manner. A program was held at 10:30 a.m. followed by the local march to the Tabernacle. Here a programme of music and speaking was carried out. The music under the direction of Rev. Charles Pease was of a specially delicate character, and the singing bringing out a blending of human voices in the sweetest melody. Rev. Chester F. Dorland made the principal address, and the audience, though the application was practical, an appeal in fact, for civic and industrial betterment. Mr. Dorland pointed however to a day when a pure government will be the natural order.

The tabernacle was filled, all the churches benevolent, fraternal and service orders being represented.

BURGLAR TAKES GROCERIES.

The grocery store of West & Son, corner of First and Alvarado streets, was entered by burglar last night and about \$15 worth of groceries carried off. The robbery occurred early in the evening and had the appearance of having been done leisurely. The police have a clew on which they are working.

Walter S. Bailey, recently the candidate for mayor, and his wife, a woman of exalted town, and his best friend, Will Marston, and his best friend, Mrs. Marston, were an exquisite gown of white chintz delicately embroidered with orange blossoms and wore orange blossoms in their hair. The maid of honor was dressed in white silk and carried white carnations and roses.

WHITTIER.

CHAPMAN LAND TO REST.

WHITTIER, Nov. 24.—The funeral of Rev. L. Rees was held from the Friends Church and was largely attended by citizens and cadets from the State School at which institution he was chaplain. Rev. Rees was a veteran of the Civil War and had been in poor health ever since his discharge. He came to Whittier from Indiana about a year ago and had made a host of friends among all classes of people. He was a man of charming personality; always had a pleasant word for everyone and did a large amount of good.

His death was very sudden. He had not been feeling as well as usual, but insisted on attending the services at the chapel of the State School last Sunday morning, and it was said by those who heard him that this, his last message to the world, was a strong one.

The most recent and forceful of his words was a brown tailor-made suit which he had made for himself.

Few persons are probably aware of

the ceremony the young couple were holding when their friends and relatives gathered around them.
